October 29 th, 2020, from 9am to 6pm
www.bhhsummit.com

Osana is the leading Telehealth SaaS platform used by medical providers to connect with patients and deliver virtual care. More than 10,000 doctors are currently using our solution to enable access to 5,000,000 patients.

Private / Public Health Insurance Firms, Clinics and Governments are making more efficient use of their resources, reducing in-person visits, improving patient outcomes, and gathering valuable information to develop preventive care initiatives.

Osana complements its Telehealth SaaS by managing an outsourcing hub in Argentina, supplying medical practitioners to provide Virtual Care in Spain obtaining ~50% cost reduction.
